

**Updated Errata Sheet for**  
**2003 Public Data Release**

**Note: EPA's TRI Program implements data quality checks to identify potential facility reporting errors. The following information reflects known facility reporting errors that were identified at the state level and notes revisions that may affect the top ranked facilities. Revisions for reporting errors received by EPA after December 10, 2004, are not yet reflected in EPA's on-line tool TRI Explorer. Any revisions received after December 10, 2004, will appear in TRI Explorer's Summer 2005 update.**

**Indiana**
